

New York State

Mathematics Teachers' Journal

Mathematics in the Movies

Features:

Problem Solving with Dice

Pythagorean Circles III

Number Arrays

And more...

VOLUME 66 Number 3 2016

Mathematics Teachers' Journal

Volume 66 Number 3 2016

Features

- 103 **Problems and Solutions for the Elementary Grades**
Jamar Pickreign
- 104 **Real Analysis Viewed Under the Socioepistemological Approach: A Case Study**
Kyriakos Petakos
- 109 **Problem Solving with Dice: An Elementary Investigation**
Bob M. Drake
- 113 **Using Movies as a Student Motivator In Mathematics**
Elana Reiser
- 118 **Nearly Isosceles Pythagorean Circles: Part III**
Charles F. Marion
- 125 **Limits vs. Long Division**
Antonella Cupillari
Saaman Khalilollahi
- 128 **Puzzles with Number Arrays**
Cristina Gomez
John Maceli
- 134 **Problems and Solutions**
Harris Kwong

Associate Editors:

Keary Howard
Dept. of Mathematical Sciences
SUNY Fredonia

Jamar Pickreign
College of Education,
SUNY Fredonia

Problems Editor:

Harris Kwong
Department of Mathematical Sciences
SUNY, Fredonia
